# ASTERLEY BROS

Modern British Amaros and vermouths, produced with integrity in South London

Rob & Jim, Asterley Bros co-founders (and brothers, incidentally) have always worked in Hospitality. Raised in Cambridge, they have been making drinks since their teenage years and have worked in a myriad of bars, restaurants and hotels over the years.

In 2009, Rob married into a Sicilian family, and having fallen in love with the mysterious world of Italian Amaro, he inherited the family recipe for a classic Sicilian Amaro.

## RANGE

DISPENSE 26% ABV

Every great restaurant should offer Amaro & Tonic as aperitif and Fernet over ice as digestif. Of course.

Cocktails cocktails cocktails.

# DIMA'S VODKA

It's a hotly debated subject as to which country first invented vodka.

What we Ukrainians have long known is that ultimately it is quality that truly matters, so we invite you to join the conversation and see if you agree with us that Dima's Ukrainian vodka is simply the most superior.

Our unique climate and Ukrainian black 'supersoil' (chernozem) enable the very finest conditions for our grains to flourish, meaning that we have the best possible ingredients for our vodka.

## RANGE

DIMA'S VODKA 40% ABV

A Ukrainian Three-Grain vodka, distilled in Ukraine using the finest three grains of rye, wheat and barley

We source three of the highest quality grains: barley, wheat and rye, which give our vodka a richer and more rounded flavour profile, crystal-clear clarity and an enviable velvety smoothness.

Finally, we entrust only the most experienced and knowledgeable Ukrainian distillers to breathe life into our vodka.

## INSPIRATION

Dima always serves his vodka with a pickle. A traditional serving in Ukraine. The salty tang pairs perfectly with the sweet smoothness of the vodka.

Try as the base to a classic or dirty martini and myriad diverse cocktail serves.

Tom thinks it's one of the very best vodkas in the world. It's time we gave great vodka the prominence it deserves.

SENTIA Spirits are crafted using a proprietary GABAergic botanical blend—plants and compounds that support the brain's natural GABA system. This means you can feel calm, sociable, and connected, without the cloudiness or crash of alcohol.

### SENTIA BLACK 0% ABV

Fueling energy and supporting focus with Star Anise Pod, Bay Leaf, Magnolia Bark, Gotu Kola Leaf and more

SENTIA Spirits began in 2020 with a radical idea: what if you could get the good from alcohol, without the bad?

That idea came from Professor David Nutt, whose decades of work on the pharmacology of alcohol revealed how GABA—a naturally occurring neurotransmitter—was the key to relaxed, prosocial states.

With co-founder David Orren and a team of botanists and neuroscientists at GABA Labs, the journey began to identify and combine powerful plant-based compounds that enhance GABA activity naturally. The result? GABA Red, GABA Black, and GABA Gold - a first-of-its-kind range of drinks for conscious connection and elevated social experience.

## INSPIRATION

Each SENTIA product works brilliantly as a simple mixed serve.

Gold with tonic - as a fresh G&T style serve bringing calm, lifted mood and balance.

Red with tonic or cranberry juice, an aromatic, bittersweet serve to aid relaxation and social connection.

Black with cola or ginger beer - a darker, peppier profile modelled as a pick-me-up.

Each can be used as the backbone to functional non-alcoholic cocktails. Try Gold in a Margarita or French Martini serve. Red as a sour and Black as an Espresso Martini or iced tea style serve. There is huge room for experimentation.
